"I suffered, during girlhood, from womanly weakness," writes Mrs. Mollie Navy, of Walnut, N. C. "At last, I was almost bed-ridden, and had to give up. We had three doctors. All the time, I was getting worse. I had bad spells, that lasted from 7 to 28 days. In one week, after I gave Cardui a trial, I could eat, sleep, and joke, as well as anybody. In 8 weeks, I was well. I had been an invalid for 5 weary years! Cardui relieved me, when everything else failed."

Be fore leaving, the women accused the governor of using his office to further the ends of private interests, and a number of them knelt on the floor and prayed that the governor might be shown the error of his ways.

Some of the English papers announce the accidental discovery of what appeared to be a cure for consumption by means of the ammoniated gases generated in the production of maggots for fish bait in an establishment near Bradford. The United States consul at Bradford, in a report to Washington, says: "While engaged" in this work, it is said certain persons known to be suffering from tuberculosis have regained their health."
